### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Ruch on 1/8/04.

The application has been amended as follows: in claim 3, "4" has been deleted and replaced with -2-.

The purpose of this amendment was to correct claim dependency.

### ***Reasons for Allowance***

Claims 2-5 and 7-10 are allowed. Claims 2-5 and 7-9 are allowed because applicant included previously indicated allowable subject matter in claim 4, and added new claim 9 with this subject matter included therein. Applicant has added new claim 10, which incorporates the limitations of original claims 1, 4, and 7. While none of these claims were indicated as allowable subject matter in the previous office action, the prior art of record does not appear to teach or disclose these combined features. The only rejection in the previous office action concerning claim 7 appears to have been overcome by applicant's definition of "substantially above" on page 23, lines 6-11 of the

Art Unit: 1712

specification, which indicates that the semiconductor is disposed rightly above the electronic part.
